

Contents

Introduction	p.	11
Tutorial A. Surgical planning based on computational models (<i>Luca Antiga, Alberto Redaelli, Emiliano Votta</i>)	»	13
Tutorial B. Image/ patient/ robot registration and surgical navigation (<i>Elena De Momi, Sara Moccia</i>)	»	25
Tutorial C. Micro-actuation and micro-sensing for surgical and therapeutic interventions (<i>Arianna Menciassi, Veronica Iacovacci</i>)	»	39
1. Structural modelling tools for the design and the optimization of surgical procedures and devices (<i>Emanuele Luigi Carniel</i>)	»	53
2. How and why to build a patient-specific cardiovascular model (<i>Francesco Migliavacca, Gabriele Dubini, Giulia Luraghi, José Félix Rodríguez Matas</i>)	»	69
3. Credibility of virtual patients (<i>Marco Viceconti, Giulia Russo, Flora Musuamba Tshinanu, Francesco Pappalardo</i>)	»	79
4. Imaging-based mechanical assessment of cardiac function (<i>Gianni Pedrizetti, Francesco Sturla</i>)	»	91
5. Augmented reality in minimally invasive surgery (<i>Lucio Tommaso De Paolis, Maria Cristina Barba, Valerio De Luca</i>)	»	103
6. Surgical simulators and training (<i>Vincenzo Ferrari, Marina Carbone, Sara Condino</i>)	»	115
7. Technologies for monitoring the effects of minimally invasive thermal therapies (<i>Emiliano Schena, Paola Saccomandi</i>)	»	131
8. Multifunctional hybrid nanovectors (<i>Attilio Marino, Christos Tapeinos, Matteo Battaglini, Gianni Ciofani</i>)	»	145
9. Tele-operated and safe surgical system (<i>Paolo Fiorini</i>)	»	157

10. Robotic radiotherapy and radiosurgery (<i>Chiara Paganelli, Guido Baroni, Roberto Orecchia</i>)	»	173
11. Interventional Radiology (<i>Marilena Vendittelli</i>)	»	185
12. Digital fabrication technologies for surgical Micro-Devices (<i>Mario Milazzo, Cesare Stefanini</i>)	»	199
13. Soft robotics in surgery (<i>Matteo Cianchetti</i>)	»	211
14. Robot-Assisted Micro-Manipulation: From <i>Ex Vivo</i> Tasks to <i>In Vivo</i> Microsurgery (<i>Dandan Zhang, Guang-Zhong Yang</i>)	»	227
15. Medical device regulation and assessment: new challenges for biomedical engineers (<i>Leandro Pecchia, Davide Piaggio, Rossana Castaldo, Luca Radice, Nicolas Pallikarakis</i>)	»	243
16. Assessment in maxillofacial surgery (<i>Chiarella Sforza, Matteo Zago, Daniele Gibelli, Federico Biglioli, Aldo Bruno Gianni</i>)	»	259
17. Robot-assisted post-surgery rehabilitation (<i>Francesca Cordella, Anna Lisa Ciancio, Loredana Zollo</i>)	»	271
